

---

CareSource would like to remind Long-Term Acute Care hospital providers (provider type 01, specialty 013) that Indiana Medicaid claims must be submitted with revenue code 101- All-inclusive room and board.

Claims submitted without this information will not meet the IHCP requirements, which could result in claim denial or recoupment of paid claims. Additional information about the submission requirements can be found in the Indiana Health Coverage Programs [provider reference module](#) for Inpatient Hospital Services.
