

Administrative Policy Statement prepared by CareSource and its affiliates are derived from literature based on and supported by clinical guidelines, nationally recognized utilization and technology assessment guidelines, other medical management industry standards, and published MCO clinical policy guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be

A. Subject

Court Mandated Health Services

B. Background

Court mandated health services are treatments ordered as a result of criminal, civil or custodial judicial proceedings. Services may include withdrawal management, medication assisted treatment, community based services, behavioral health inpatient or outpatient treatment, medical inpatient or outpatient treatment and/or other treatment related to one's overall health.

C. Definitions

- Court Mandated Health Services Court order issued upon the decision of a judge or the result of a judicial proceeding for health-related services.

Policy

I. Court mandated health services are subject to all existing CareSource policies and procedures, including medical necessity determination and prior authorization as necessary.

II. If court ordered health services are determined as not meeting medical necessity criteria, the member will be referred to care management to ensure access to the proper treatment and services and assist in coordination of necessary care.
